

Secular Time

Luoning Zhang

The exhibit topic I designed is “Secular time”: Hairpin, Jug, and Vase. On a sunny afternoon, ladies wear their beautiful hair decorations, using exquisite jug in a decoration room and enjoy their afternoon tea. And it would be a period of secular time in life. The objects in Hunt museum inspired me is from European, and hunt museum collection objects HCA 515, DG 094, HCL 022. A pin, a porcelain vase, and a late renaissance jug.
